JOURNAL OF REPRODUCTIVE IMMUNOLOGY

Contents (Volume 36)

Nos. 1,2

BASIC IMMUNOLOGY

HLA-G polymorphisms: neutral evolution or novel function?
C. Ober, C.L. Aldrich (Chicago, IL) 1

Mucosal immunity in the female genital tract
P. Brandtzaeg (Oslo, Norway) 23

Designing an effective immunocontraceptive
M.G. O'Rand, I.A. Lea (Chapel Hill, NC) 51

Molecular nature of a sperm acrosomal antigen recognized by HS-13 monoclonal antibody
T. Yoshiki, K. Johnin, C.H. Kuo, M.C. Chou, B. Lai, C.-Y.G. Lee (Vancouver, Canada) 61

ANIMAL SCIENCES

Protective immunity against HSV-2 in the mouse vagina
M.B. Parr, E.L. Parr (Carbondale, IL) 77

CLINICAL STUDIES

Pre-term labor: an intra-uterine inflammatory response syndrome?
D.J. Dudley (Salt Lake City, UT) 93

Actions of immunoregulatory agents on 5-HETE production by cultured human amnion cells
S.S. Edwin, M.D. Mitchell, D.J. Dudley (Detroit, MI; Auckland, New Zealand; Salt Lake City, UT) 111

Antiphospholipid antibodies or not? The role of β_2 glycoprotein 1 in autoantibody-mediated pregnancy loss
L.W. Chamley (Auckland, New Zealand) 123
